Howdy Student Organization Leaders and Advisors,

As the Fall 2020 semester begins, many changes have been implemented to effectively navigate the health and safety risks associated with the COVID-19 pandemic. With reports of positive test results in our student organization communities already increasing as students have returned to campus, a consistent and united approach to following Texas A&M’s Event Planning Guidelines for on- and off-campus events will be the key to keeping our community healthy.

There is an expectation for all student leaders to work with their respective members to ensure compliance with current university, local, state, and federal guidance. If your organization has hosted or intends to host in-person events that fall outside of these guidelines, please adjust your plans accordingly to ensure compliance and to protect the health and safety of all involved.

If any member(s) of your organization shows symptoms of COVID-19 or has tested positive for COVID, they need to complete the Campus Reporting Form so that the appropriate contact tracing measures can be initiated. Additionally, in the case of a confirmed positive test by one of your members, all other members who had close contact with that individual must also submit the Campus Reporting Form and self-quarantine for 14 days.

Please remember that it is the responsibility of all Aggies to ensure the safety of our community. With universities already beginning to close around the nation, it is imperative that we all work together in order to preserve the Aggie experience.

Please continue to visit the Student Activities website for student organization specific updates.

We are here to support you and your organization if you need any assistance.
